Bilingualism Week

Hiking and trekking are outdoor activities that involve walking in nature, but they differ in duration, difficulty, and level of planning.

**Hiking**

Duration: It is usually completed in a single day, generally taking a few hours.

Terrain and routes: It takes place on official, well-marked, and established paths and trails.

Difficulty: Easy to moderate, making it accessible to beginners, families, and people with a moderate level of physical fitness.

**Trekking**

Equipments:

A large backpack is needed, along with a tent, sleeping bag, food, water, trekking poles, and technical mountain boots with high ankle support.

Hiking boots

They protect your feet and help you walk safely.

Backpack

It carries your water, food, and personal items.

**Trekking poles**

**EN: They help with balance on uneven paths.**

**Trekking (Travesía de varios días.)**

Duration: It is a long-distance journey that lasts several days and includes overnight stays (camping or sleeping in mountain shelters).

Terrain and routes: It involves exploring more remote, rugged, or mountainous areas, sometimes without clearly marked trails.

Difficulty: Moderate to challenging; it requires good physical endurance, navigation skills, and previous experience.

## Tent

It gives you shelter when you sleep outdoors.

## Sleeping bag

**It keeps you warm while you sleep**

**Trail food**

**It gives you energy during a long journey**

**Map and compass**

**They help you find your way.**

**Birdwatching (avistamiento de aves)**

**Birdwatching is observing birds in their natural habitats**

**Binoculars**

**They help you see birds from far away.**

**Bird guide**

**It helps you identify different bird species.**

**Camera**

**It lets you take pictures of birds without disturbing them**

**Questionnaire**

**1. Which item protects your feet on a trail?**

**Binoculars**

**Hiking boots**

**Tent**

**2. What do you use to carry your food and clothes?**

**Backpack**

**Compass**

**Camera**

**3. Which item gives you shelter at night?**

**Bird guide**

**Sun hat**

**Tent**

**4. What keeps you warm while you sleep?**

**Sleeping bag**

**Water bottle**

**Notebook**

**5. What helps you find your way?**

**Camera**

**Map and compass**

**Binoculars**

**6. What do you use to see birds far away?**

**Binoculars**

**Trekking poles**

**Sleeping bag**

**7. Which item helps you identify bird species?**

**Tent**

**Bird guide**

**Hiking boots**

**8. What do you use to write your observations?**

**Notebook and pencil**

**Water bottle**

**Backpack**

**9. Which activity usually lasts several days?**

**Birdwatching**

**Hiking**

**Trekking**

**10. Which activity focuses on observing birds?**

**Trekking**

**Birdwatching**

**Hiking**

**11. What helps you stay hydrated?**

**Water bottle**

**Camera**

**Compass**

**12. Which item helps you keep your balance while walking?**

**Bird guide**

**Trekking poles**

**Sleeping bag**
